MARKET OPENS EASY; STRONG AT THE CLOSE

Liberal Buying Follows Confirmation of Reports of Heavy Foreign Exports.

CHICAGO. Feb. 7.—At the opening of the wheat market prices were somewhat easier because of the comparative weakness at Liverpool in the face of the decided strength shown here yesterday. Before the end of the first hour, however, the weakness was dispelled by liberal purchases by commission houses, and throughout the remainder of the day the market was strong.

Export news was the main source of strength, although substantial advances at Berlin, Parls and Antwerp were minor influences. One report from an export house at Duluth stated that the foreign situation is the strongest for several years. These reports were partially confirmed, and announcement was made that forty boutloads of wheat had been taken in New York for export. The market closed strong, with May 3c higher.

May opened 1251c to 1265c lower at 79c to 79kc, sold at 751c 79c, and advanced to 80kc, closing at 80kc.

The corn market was firm early in the day, in sympathy with oats, but later the tone became weak because realizing by some of the larger holders. May opened a shade to 126c lower at 474 to 474c, advanced to 476c and sold off to 47c, closing net unchanged at \$471047c.

California produce is selling at prices within reach of all, with the exception of cucumbers, which retail for 25 cents each. The stock of oranges on the market is extremely large and there will probably be a drop in price before long. The commission merchants also overstocked themselves with cranberries this season, which has caused the price to drop almost half. Cranberries are now selling in some stores at three quarts for 25 cents. Apples are holding out in good shape, and some of the dealers claim they will have apples up until the first of the summer. Retail prices for today are as follows.

WEAK MEN

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.
